SECURITY UNIFORMS

Serious.
Security.
Style.

A good security uniform will allow you to give an impression that you are in control. This is critical to making yourself look good at your job, and also commanding attention in the event of an emergency. A security guard that appears frumpy or unkempt is not going to receive the same cooperation and respect as someone in a clean and well-presented uniform. Making some time to carefully ensure that you are looking your best will go a very long way.
